

2 October 1964

MEMORANDUM FOR: Chief, USSR Branch/Geographic Division/ORR

SUBJECT: Request for Support

1. This branch is currently involved in an analysis dealing with the Leningrad area. To support this study information is needed regarding the weather conditions at Leningrad during the winter months of 1962 - 1963 and 1963 - 1964. Specifically a temperature history and snowfall record is desired for the two seasons and compared, if possible, to statistics for other years. It would be appreciated if your Branch could provide the desired information.

STATINTL

2. Preliminary contact has already been established between [redacted] from this Branch and [redacted] from your organization. This memo is intended to formalize that contact and support request.
